

I Want

Instructions: Adult chooses a picture, saying, "I want _____." Child takes a turn, using the same phrase. You may indicate your choices by drawing an X of a certain color in the corner of the picture, or by placing a colored game chip or goldfish cracker, a small bit of cereal or beans of different colors, in your square. If your markers are edible, you can go through the game again, naming your choice in past tense "I wanted....", eating each marker as you go!
